Allowable Subject Matter

Claims 1-19 are allowed.

The following is an examiner's statement of reasons for allowance: The rejection of claims 1-19 under 35 U.S.C. 102(b) as being anticipated by Zito, US Patent 5,439,757 is withdrawn. As has been noted by the applicants, the pH compensation process disclosed in the Zito '757 patent only involves the use of a single electrolyte and there is no disclosure of using an electrolyte with the auxiliary or compensation cell that is free from polysulfide and from bromine in its negative chamber.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
